

## Proposal for a community wide public meeting

The Bute Community Council (BCC) undertakes to convene a Bute community wide public meeting in the spring of 2023 (a date to be finalised for February or March). The purpose of the meeting is

- to evaluate what progress has been made since a previous community meeting convened by a previous BCC in February 2015 to discuss how to reverse the depopulation of Bute.
- to discuss what further initiatives the community believes need to be taken to make Bute a better place to live, work and visit.

The BCC will form a small working group to organise the community wide public meeting and will invite the three elected local Argyll & Bute councillors and up to three members of the local community to contribute to the planning and conduct of the community wide public meeting.
